**DETAILED ACTION**

1. Claims 1, 4-7, and ~~8~~<sup>9</sup> are pending in this examination; claim 1 independent. The Office acknowledges the cancellation of claims 2, 3, and 8.

***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1, 4-7, and 9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

4. Claim 1 recites the limitation "...not greater than the average traffic volume plus  $\alpha\%$ ..." (lines 25 and 27). It is unclear what the symbol  $\alpha\%$  means, and therefore cannot be construed.

5. Claim 1 further includes the limitation "...in a small value..." (lines 28 and 29) which is a term of degree. The term is not defined by the claim, the specification does not provide a standard for ascertaining the requisite degree, and one of ordinary skill in the art would not be reasonably apprised of the scope of the invention.

6. Claim 5 is further rejected as being indefinite. Claim 5 recites the limitation "...QoS information to outside...". It is unable to be ascertained outside of what is the notification being done. Correction is required.

7. Any claims not expressly discussed depend upon claim 1, and are therefore rejected for similar reasons as stated above.

***Response to Amendment***

8. Applicant's arguments filed March 14, 2006 have been fully considered but they are moot in view of the new grounds of rejection.

***Conclusion***
